## O'Brien and Gere hosts local high school students

By: TWC News Staff 02/26/2014 03:42 PM

ONONDAGA COUNTY, N.Y. -- Students at two Onondaga County high schools get to see their lessons come to life.

O'Brien and Gere hosted a tour Wednesday for robotics students from Westhill High School and the Syracuse Academy of Science Charter School.

They got the chance to check out an intelligent robotics project the company has been working on for the aerospace market.

"I think it's fascinating because I get to see a real working environment. So after I get out of school I have more choices and more opportunities," said Abdul Rashid, Syracuse Academy of Science Charter School 9th grader.

Laurie Muok, Syracuse Academy of Science student said, "It's helps you consider future plans, like maybe one of us here, might want to come work here some day because it look so cool."

Many of the kids said they hope to pursue a career related to math, science, and technology.
